Welcome, Nithesh!

Take a tutorial

Step through implementing a Data fabric use case in a sample project.

→

Work with data

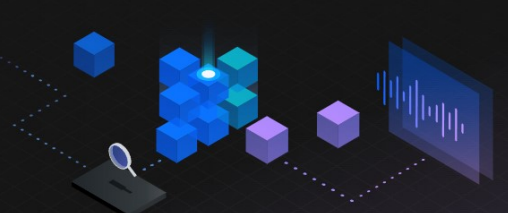

Create a project for your team to prepare data, find insights, or build models.

→

Learn what's new

Stay current with new features, enhancements, and other changes.

→

Quick start

Create data pipelines with DataStage

Build customer profiles with IBM Match 360 with Watson

Catalog and govern data with Watson Knowledge Catalog

Build and manage ML models with Watson Studio

Query data anywhere with Watson Query

What's new

Support for IBM Cloud App ID for some services

Dec 02, 2022

Improvements and enhancements in Watson Query

Dec 02, 2022

News Bulletin: 2022-11-16 - IBM Cloud

Nov 16, 2022

SAMPLE PROJECT

Orchestrate an AI pipeline

Tutorial in this project: Orchestrate an AI pipeline to create a data pipeline to deliver concise, pre-processed, and up-to-date data that lies across three external data sources.

The screenshot displays the IBM Watson Studio web application. At the top, there's a navigation bar with the IBM logo and 'Watson Studio' text. Below it, a breadcrumb trail shows 'Deployments / models / UAEL /'. The main heading is 'University Admit Eligibility Predictor', followed by status indicators 'Deployed' and 'Online'. There are two tabs: 'API reference' (selected) and 'Test'. Under 'API reference', there's a section for 'Direct link' showing an endpoint URL and a dropdown menu set to 'IAM'. Below this is a 'Code snippets' section with a tab for 'cURL'. It contains a note about setting SAPI_KEY and two curl commands for authentication and prediction. On the right side, a sidebar lists metadata for the deployment: Created (Dec 2, 2022, 8:35 PM), Updated (Dec 2, 2022, 8:36 PM), Deployment ID (90a73066-d10c-4457-a628-5b2e...), Software specification (runtime-22.1-py3.9), Copies (1), Serving name (No serving name), Description (No description provided), Tags (Add tags to make assets easier to find), Associated asset (UAEL, 6a1db2ac-6796-466d-8ecb-ec7f...), and Model ID (6a1db2ac-6796-466d-8ecb-ec7f...).
